

FETHERS FLEXESHOWER

Introducing

FETHERS CUSTOM SHOWER DESIGN SOFTWARE

Improve Profitability

Provide accurate and detailed glass drawings to your supplier, minimising errors. Know that your designs will work and will be within the design criteria of the products.

Automatic Calculations

Simple data input, deductions are made automatically. Fittings can easily be changed and sizes altered during the process. Automatic adjustments are calculated, for example the addition of water seals.

Security & Order Generation

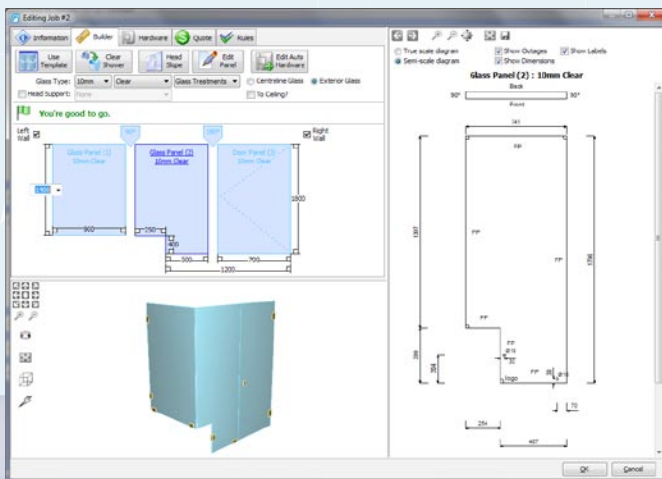

This is not a web based program, your confidential information and customer details are all stored on your server or PC, not someone else's server or accessed over the internet. All quotations are stored on your database allowing easy and accurate referencing and quick generation of standard orders.

Quotations & Presentation

Enhance the professionalism of your company, present customised quotations, glass orders and installation sheets.

No Cost

The latest design is available to you at no cost, simply continue to order your Frameless Glass Shower Hardware from Fethers Frameless*

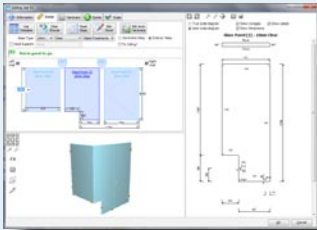

*Flexible Shower Design Software
